OVERVIEW

Solution Tablets

Solution Tablets are standardized approaches Accenture uses to help solve client challenges and opportunities. A Solution Tablet brings together standardized elements of each solution including its client value proposition, services, assets, and teams.

OUR

Objectives

Solution Tablets are designed to provide a standardized, consistent approach to building offerings that enable us to sell and deliver client work — an approach that enables our people to work smarter and address our clients' business priorities and challenges.
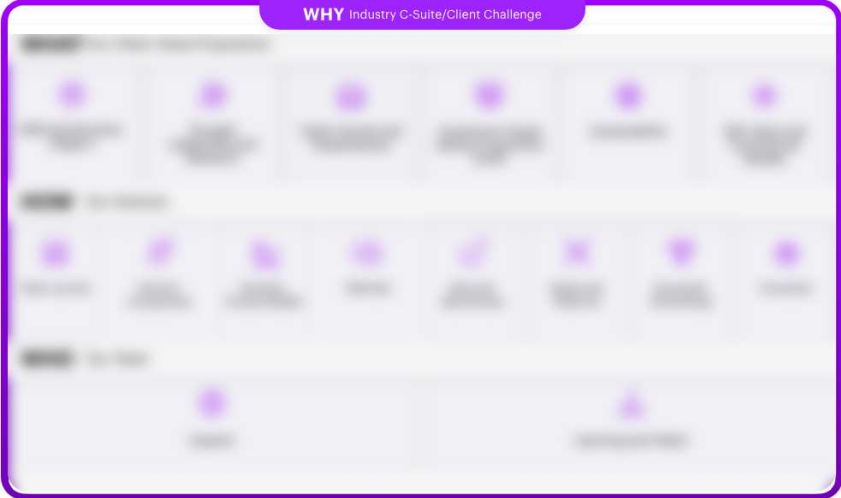

Solution Tablet

To bring the solution together, a 'Solution Tablet' has four major components:
