## Contribute Back

Amplify the impact & get rewarded by directly contributing to Reinvention Console, with required approvals and adherence to formal standards

# Training

Discover the benefits of the Experience Journey, Resource collections, and Learning Boards by understanding how to use the Accenture Reinvention Console for client interactions.

Learn More

# Solution Tablets

**Solution Tablets are the standardized approaches Accenture uses to help solve client challenges and opportunities.**

A Solution describes how Accenture leverages its capabilities across people, processes, and assets to meet a specific business challenge or opportunity. The "Tablet" is how the company houses and updates standardized elements of the solution including its client value proposition, services, assets and teams.

Each Solution Tablet is:

- a digital container which has the best of our asset-led industry-focused solutions
- data-driven, repeatable, and ready to use with clients
- enhanced with continuous contributions from SMEs and end users, to ensure the content in the solution tablets is our best.

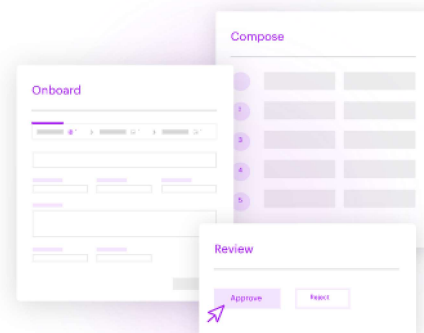

Know More

# Assets

**Assets are the intellectual property that Accenture owns and uses to assemble its solutions. Accenture's assets:**

- Include technologies, processes, patents and other property of Accenture

- Share the same data model and integrated with common engineering – enabling speed, scale, automation, and repeatability.
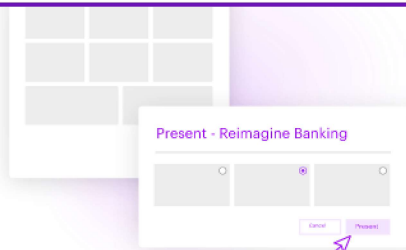

Know More

# Workspace

**The myWorkspace tool is a true differentiator that will help reimagine client engagement, move from the expected decks to dynamic, higher-impact client experiences – ensuring that our clients see the best of Accenture, every time, everywhere.**

Leverage myWorkspace to:

- Tailor relevant aspects of a Solution Tablet to align with client priorities using

**Accenture Reinvention Console**

Explore ⌄    Solution Tablets    Assets    Learn ⌄    Adopt    🔍    **myWorkspace**

- Enable the client journey from vision to value using Enterprise Assets.

- Create a personalized client transformation journey to have client conversations.

- Modify the look and feel to align to your client's brand and content expectations.

Know More

# Adopt

**View our asset adoption percentage across Accenture, to see how effectively we use our assets to sell, solution, and deliver**

Leverage the Adopt feature to:

- Track adoption by Market, Market Unit, Industry and/or Service.

- Get insights on adoption by target, current adoption level, and adopted vs eligible count.

- Track the adoption trend for different timelines across platforms and assets.

- Analyze the current adoption of our assets with respective Solution Architects, deal teams, adoption teams

better adoption.

- Understand which assets are proven
  tools to support solutions; what's working
  and how best to leverage.
